#### MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The consolidated financial statements of Panoro Minerals Ltd. ("the Company") are the responsibility of the Company's management. The condensed consolidated interim financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) and reflect management's best estimates and judgments based on information currently available.

Management has developed and maintains a system of internal controls to ensure that the Company's assets are safeguarded, transactions are authorized and properly recorded, and financial information is reliable.

The Board of Directors is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal controls through its Audit Committee, which is comprised of non-management directors. The Audit Committee reviews the condensed consolidated interim financial statements prior to their submission to the Board of Directors for approval.

These condensed consolidated interim financial statements have not been reviewed by the Company's auditors.

An Exploration Stage Company

Notes to Condensed Consolidated Interim Financial Statements (Unaudited - Expressed in Canadian Dollars)
For the six months ended June 30, 2015 and 2014

## 1. Nature of operations

Panoro Minerals Ltd. (the "Company") is a publicly listed company incorporated in Canada with limited liability under the legislation of the Province of British Columbia. The Company is an exploration-stage company engaged principally in the acquisition, exploration and development of mineral properties in Perú.

These condensed consolidated interim financial statements do not reflect adjustments, which could be material, to the carrying value of assets and liabilities, which may be required should the Company be unable to continue as a going concern. Wherever necessary, the comparative figures have been changed to conform to the current period's presentation.

### 2. Basis of presentation

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 "Interim Financial Reporting" ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

These condensed consolidated interim financial statements were approved and authorized for issue by the Board of Directors on August 25, 2015.

### 3. Significant accounting policies

The preparation of condensed consolidated interim financial statements in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a basis consistent with those followed for the Company's most recent annual consolidated financial statements for the year ended December 31, 2014. In the opinion of management, all adjustments considered necessary for fair presentation of the Company's financial position, results of operations and cash flows have been included. Actual results may differ from these estimates.

The functional and reporting currency of the Company and its subsidiaries is the Canadian dollar.

## 3. Significant accounting policies (continued)

## (a) Changes in International Financial Reporting Standards (IFRS)

The Company has not adopted any new standards or consequential amendments during the period.

## (b) Changes in IFRS not yet adopted

#### IFRS 9 Financial Instruments

In November 2009, the IASB issued IFRS 9, Financial Instruments, as the first step in its project to replace IAS 39, Financial Instruments: Recognition and Measurement. On July 24, 2014, the IASB issued the complete IFRS 9. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on an entity's business model and the contractual cash flows of the financial asset. Classification is made at the time the financial asset is initially recognized, namely when the entity becomes a party to the contractual provisions of the instrument.

IFRS 9 amends some of the requirements of IFRS 7, Financial Instruments: Disclosures, including added disclosures about investments in equity instruments measured at fair value in other comprehensive income, and guidance on the measurement of financial liabilities and de-recognition of financial instruments. The mandatory effective date of IFRS 9 is for annual periods beginning on or after January 1, 2018 with early adoption permitted, and must be applied retrospectively with some exemptions permitted. The Company is currently assessing the impact of adopting IFRS 9 on its consolidated financial statements.

#### IFRS 15, Revenue from Contracts with Customers

On May 28, 2014, the IASB issued IFRS 15. The new standard is effective for annual periods beginning on or after January 1, 2017 with early adoption permitted. IFRS 15 will replace IAS 11 Construction Contracts, IAS 18 Revenue, IFRIC 13 Customer Loyalty Programmes, IFRIC 15 Agreements for the Construction of Real Estate, IFRIC 18 Transfer of Assets from Customers and SIC 31 Revenue – Barter Transactions Involving Advertising Services.

The standard contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when revenue is recognized. New estimates and judgmental thresholds have also been introduced, which may affect the amount and/or timing of revenue recognized.

### 3. Significant accounting policies (continued)

## (b) Changes in IFRS not yet adopted (continued)

The Company intends to adopt IFRS 15 in its consolidated financial statements for the annual period beginning on January 1, 2017. The extent of the impact of adoption of the standard has not yet been determined.

Amendments to IAS 1. Presentation of Financial Statements

On December 18, 2014, the IASB issued amendments to IAS 1 as part of its major initiative to improve presentation and disclosure in financial reports. The amendments are effective for annual periods beginning on or after January 1, 2016 with early adoption permitted. The Company intends to adopt these amendments in its financial statements for the annual period beginning on January 1, 2016. The extent of the impact of adoption of the amendments has not yet been determined

#### 4. Marketable securities

As at June 30, 2015, the Company held 100,000 common shares of Montan Mining Corp., at cost of \$10,000.

During the six months ended June 30, 2015, Strait Minerals amalgamated with Montan Capital Corp. and 1023174 B.C. Ltd. to operate as Montan Mining Corp. after a reverse consolidation of one new for ten old common shares. At December 31, 2014, the Company held 1,000,000 common shares of Strait Minerals Ltd. ("Strait"), prior to the reverse consolidation. At June 30, 2015, the fair value of these common shares was \$17,000.

#### 5. Exploration and evaluation assets

The investment in and expenditures on mineral interests comprise a significant portion of the Company's assets. Realization of the Company's investment in these assets is dependent upon the confirmation of legal ownership of the properties, the attainment of successful production from the properties or from the proceeds of their disposal. Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

The Company is in the process of exploring and developing its mineral exploration and evaluation assets and has not yet determined whether they contain resources that are economically recoverable.

### 5. Exploration and evaluation assets (continued)

Management anticipates that the Company will continue to raise adequate funding through equity or debt financings, although there is no assurance that the Company will be able to obtain adequate funding on favorable terms. The recoverability of amounts shown for exploration and evaluation assets and property and equipment is dependent upon, among other things, the discovery of economically recoverable reserves, the ability of the Company to obtain the necessary mining and environmental permits, and future profitable production or proceeds from the disposition of the exploration and evaluation assets.
