

**PANORO MINERALS LTD.**

**Condensed Consolidated Interim Financial Statements**

For the three months ended March 31, 2026 and 2025

*(Expressed in United States dollars, unless otherwise stated)*

## MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

These condensed consolidated interim financial statements of Panoro Minerals Ltd. ("the Company") and related information presented in this financial report are the responsibility of the Company's management and have been approved by the Board of Directors. These condensed consolidated interim financial statements have been prepared in accordance with IFRS Accounting Standards and reflect management's best estimates and judgments based on information currently available.

Management has developed and maintains a system of internal controls to ensure that the Company's assets are safeguarded, transactions are authorized and properly recorded, and financial information is reliable.

The Board of Directors is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal controls through its Audit Committee, which is comprised of a majority of non-management directors. The Audit Committee reviews the results of the audit and the annual consolidated financial statements prior to their submission to the Board of Directors for approval.

# PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements  
(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

---

## 1. Nature of operations

Panoro Minerals Ltd. is incorporated under the *Business Corporations Act* in the Province of British Columbia. The Company's principal place of business is located at 480 – 505 Burrard Street, Vancouver, BC, Canada V7X 1M3. Panoro Minerals Ltd. and its subsidiaries are referred to as "Panoro" or the "Company."

The Company is an exploration-stage company engaged principally in the acquisition, exploration, and development of mineral properties in Perú and trades on the TSX Venture Exchange (the "Exchange") as a Tier 2 mining issuer under the trading symbol "PML". The Company also trades on the Bolsa de Valores de Lima under the same trading symbol, and on the OCTQB under the symbol "POROF".

## 2. Going concern

These consolidated financial statements have been prepared on a going concern basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business.

As at March 31, 2026, the Company had an accumulated deficit of \$47,862,334 (December 31, 2025 – \$44,377,358) and a working capital deficiency, being current assets less current liabilities, of \$17,317,767 (December 31, 2025 – \$14,598,382).

Subsequent to March 31, 2026, the Company completed a brokered private placement of 22,105,263 shares for gross proceeds of \$15,325,800 (C\$21,000,000) (see note 16) which will allow the Company to carry out its planned business objectives for the foreseeable future.

## 3. Basis of presentation

### (a) Statement of compliance

These condensed consolidated interim financial statements were prepared using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended December 31, 2025 and have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") in compliance with International Accounting Standard ("IAS") 34 – Interim Financial Reporting. Accordingly, certain disclosures normally included in annual financial statements prepared in accordance with IFRS have been omitted or condensed. These condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2025.

These condensed consolidated interim financial statements of the Company for the three months ended March 31, 2026, were approved and authorized for issuance by the Board of Directors on May 27, 2026.

### (b) Critical accounting estimates

The preparation of financial statements requires management to make estimates that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.

Although management uses historical experience and its best knowledge of the amount, events or actions to form the basis for judgments and estimates, actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized in the period in which the estimates are revised and in any future periods affected.

# PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in **United States dollars**, unless otherwise stated)

For the three months ended March 31, 2026 and 2025

---

Significant areas requiring the use of estimates and assumptions relate to the review of asset carrying values and determination of impairment charges relating to non-current assets if an indicator of impairment is identified. Actual results could differ from those estimates. Key estimates made by management with respect to the areas noted previously have been disclosed in the notes to these condensed consolidated interim financial statements as appropriate.

## (c) Use of judgements

Significant areas requiring judgement relate to assessing exploration and evaluation assets for indicators of impairment, the going concern assessment as discussed in note 2, the fair market valuation of the Company's investment in Antilla Copper S.A. as disclosed in note 4 and determining the appropriate accounting for the Wheaton Precious Metals Purchase Agreement ("Wheaton PMPA") with Wheaton Precious Metals International Ltd. ("Wheaton Metals") as disclosed in note 9.

## (d) New accounting standards

### Future accounting changes

Effective for annual periods beginning on or after January 1, 2027, the Company is required to adopt IFRS 18, Presentation and Disclosure in Financial Statements, with early adoption permitted. IFRS 18 will replace IAS 1; many of the existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its operating profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7, Statement of Cash Flows. The Company is assessing the potential impact of the application of the standards.

## 4. Investment in Antilla Copper

On December 3, 2021, the Company completed a sale of 75% of its interest in the Company's subsidiary, Antilla Copper S.A. ("Antilla Copper") which holds the Antilla project, an advanced stage mineral exploration project (the "Antilla Project"). The acquisition payments were staged and the acquiror, Heeney Capital Acquisition Company ("HCAC") initially acquired 75% of the shares of Antilla Copper for \$7,383,000 (C\$10,000,000) paid at the time of sale, and \$2,032,540 (C\$2,753,000) (the "Second Payment"), originally receivable at the earlier of HCAC going public on an internationally recognized stock exchange or ten months from the closing of the transaction, being October 3, 2022. During the year ended December 31, 2023, the Company amended the Antilla Copper sale agreement with Calisto Cobre Resources Corp. (formerly HCAC) ("Calisto"). Upon signing the amended sale agreement, Calisto made a payment of \$222,630 (C\$300,000) towards the Second Payment. During the year ended December 31, 2024, the Company received \$2,005,187 from Calisto comprised of \$1,854,713, the outstanding balance of the Second Payment and \$150,474, the outstanding balance of accrued interest receivable as at the payment date.

The agreement also includes the following contingent payments:

- a payment of \$5,293,000 (C\$7,000,000) (the "Third Payment") to be made twelve months after the earlier of drilling permits and community land use agreements being obtained or a pre-feasibility or feasibility study is completed on the Antilla Project; and
- a further contingent payment of \$7.6 million (C\$10.0 million) if a feasibility study estimates the net present value at an 8% discount rate ("Antilla NPV8") of the Antilla Project to be above \$310 million; or up to \$37.8 million (C\$50.0 million) if the Study estimates the Antilla NPV8 to be above \$360 million.

Included in the sale agreement is an election for the Company and Calisto to contribute their pro-rata portion of all exploration and development expenditures based on their respective ownership in Antilla Copper at the time of sale. Non-contributing shareholders are subject to dilution of their ownership based on a C\$30M valuation of Antilla Copper.

## PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements  
(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

---

To date, the Company has elected not to contribute its pro-rata share of Antilla Copper's exploration and development expenditures resulting in dilution of the Company's investment in Antilla Copper. As at March 31, 2026, the Company retains a net interest of approximately 5.17% (December 31, 2025 – 6.31%) in Antilla Copper.

Should Panoro's interest in Antilla Copper fall below 5%, the Company's then remaining shares in Antilla Copper will be cancelled and the Company will receive a 1.0% NSR on mineral production from the Antilla Project. In addition to its existing 2.0% NSR, the Company would have a total 3.0% NSR over the life of the Antilla Project subject to a buyback right for the 1.0% NSR for \$3.0 million (C\$4.0 million).

During the three months ended March 31, 2026, the Company recorded a loss of \$276,660 in the statement of other comprehensive loss, the difference between the fair value estimate of the investment at March 31, 2026 of \$870,126 and the fair value estimate of the Company's investment as at December 31, 2025 of \$1,146,786.

### 5. Exploration and evaluation assets

The investment in, and expenditures on, mineral interests comprise a significant portion of the Company's assets. The realization of the Company's investment in these assets is dependent upon the confirmation of legal ownership of the properties and the attainment of successful production from the properties or from the proceeds of their disposal. Although the Company has taken steps to verify the title to mineral properties in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements or transfers and title may be affected by undetected defects.

The Company's main mineral property interest is Cotabambas, an advanced stage exploration property. As at December 31, 2025, the Company's other fully held mineral property interests are all in various stages of exploration. All exploration and evaluation asset interests are 100% held by the Company through wholly owned direct and indirect subsidiaries of the Company that were created to hold the various mineral property interests.

The Company performs an ongoing review of its properties, and based on the analysis of the properties, there were no indicators of impairment with respect to the mineral property interests with capitalized exploration and evaluation costs at March 31, 2026 and December 31, 2025.

#### Humamantata

At March 31, 2026, the Company has \$1.2 million (December 31, 2025 – \$1.0 million) in capitalized exploration and evaluation costs with respect to the Humamantata Project.

#### Kusiorcco

On December 28, 2017, the Company entered into an agreement with a subsidiary of Hudbay Minerals Inc. ("Hudbay"), whereby Hudbay acquired the Company's concessions comprising the Kusiorcco Property. The Company retained a 2.0% NSR (the "Kusiorcco NSR") from mineral production on the project.

In October 2024, the Company entered into a loan agreement with Hudbay (the "Hudbay Loan Agreement") in which the Company borrowed \$2.0 million (the "Principal") from Hudbay at an interest rate of 12% per annum.

In December 2024, Hudbay provided notice to Panoro of its intention to purchase and cancel the Kusiorcco NSR from Panoro for a price of \$2.0 million (the "Purchase Price"). Both parties agreed to offset the Principal against the Purchase Price in full satisfaction of the payment required for the purchase of the Kusiorcco NSR. The purchase and cancellation of the Kusiorcco NSR was registered in the Peru Public Registry in February 2025.

As at March 31, 2026 included in accounts payable and accrued liabilities is \$nil (December 31, 2025 – \$57,165), the outstanding balance of accrued interest payable to Hudbay as per terms of the Hudbay Loan Agreement.

Current portion of lease liability	\$	50,548
Long-term portion of lease liability	\$	12,604

(1) The lease liabilities were discounted using an incremental rate of 9.57% per annum on entering into the lease.

As at March 31, 2026, the remaining undiscounted lease payments, including non-lease components, are disclosed in note 14 – Commitments.

### 8. Derivative warrant liability

During the three months ended March 31, 2026 and the year ended December 31, 2025, the Company issued warrants in connection with its share issuances which were recorded as derivative financial liabilities. These liabilities are not cash obligations. These warrants are revalued at each reporting period and any gain or loss is recorded in income or loss.

The fair value of the warrants issued during the three months ended March 31, 2026, was initially measured at \$1,945,753 using the Black Scholes Option Pricing Model with the following assumptions:

Share price on date of issue	\$0.34
Warrant exercise price	\$0.43 (C\$0.60)
Risk free rate of return	2.47%
Expected life	3.00 years
Expected volatility	82.92%
Expected dividend yield	0.00%

The fair value of the warrants issued during the year ended December 31, 2025, was initially measured at \$688,794 using the Black Scholes Option Pricing Model with the following assumptions:

Share price on date of issue	\$0.305 – \$0.32
Warrant exercise price	\$0.43 (C\$0.60)
Risk free rate of return	2.44% – 2.57%
Expected life	3.00 years
Expected volatility	79.58% – 81.75%
Expected dividend yield	0.00%

## PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements  
(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

The following were changes to the Company's warrant liabilities during the periods indicated:

Derivative warrant liability as at December 31, 2024	\$	-
Warrants issued November 21, 2025		571,150
Warrants issued December 22, 2025		117,644
Fair value adjustment		389,473
Derivative warrant liability as at December 31, 2025	\$	1,078,267
Warrants issued February 6, 2026		1,945,753
Fair value adjustment		2,340,206
<b>Derivative warrant liability as at March 31, 2026</b>	<b>\$</b>	<b>5,364,226</b>

Assumptions used in the Black Scholes Option Pricing Model as at March 31, 2026 are as follows:

Share price on date of issue	<b>\$0.50</b>
Warrant exercise price	<b>\$0.43 (C\$0.60)</b>
Risk free rate of return	<b>2.87%</b>
Expected life	<b>2.65 – 2.86 years</b>
Expected volatility	<b>85.48% – 86.29%</b>
Expected dividend yield	<b>0.00%</b>

### 9. Early Deposit Precious Metals Agreement

On March 21, 2016 (the "Agreement Date"), the Company entered into the Wheaton PMPA in respect of the Cotabambas project located in Perú. The term of the Wheaton PMPA continues in effect for 20 years and automatically renews for successive ten-year periods until Wheaton Metals terminates the Wheaton PMPA. The principal terms of the Wheaton PMPA are such that Wheaton Metals will pay the Company upfront cash payments totaling \$140.0 million (the "Deposit") for 25% of the payable gold production and 100% of the payable silver production (decreasing to 16.67% of the payable gold production and 66.67% of the payable silver production after a certain production volume has been delivered) to Wheaton Metals from the Company's Cotabambas Project in Perú.

In addition, Wheaton Metals will make production payments to the Company of the lesser of the market price and \$450 per payable ounce of gold and \$5.90 per payable ounce of silver delivered to Wheaton Metals, increasing annually by 1%, four years after commencement of commercial production, over the life of the Company's Cotabambas Project. Any excess of the market price and the fixed payments will be credited against the Early Deposit (as defined below) until the Early Deposit is \$nil. If by the expiry of the term of the Wheaton PMPA, the Company has not delivered enough production to reduce the Early Deposit to nil, the uncredited balance will be repaid to Wheaton Metals.

The Company received payments totaling \$14.0 million from the Agreement Date to December 31, 2023, the "Early Deposit", which is the portion of the Deposit to be advanced to the Company prior to the completion of a feasibility study on the Cotabambas project.

The balance of the Deposit of \$126.0 million (the "Initial Construction Payment") is payable in instalments during construction of the Cotabambas Project, should Wheaton Metals elect to proceed with the Agreement. Under provisions of the Initial Construction Payment, the Company must meet certain minimum working capital requirements. Wheaton Metals may terminate the Wheaton PMPA at any point up to 90 days following delivery of a feasibility study on the Cotabambas project upon giving the Company six months' notice, in which case all Early Deposit amounts advanced less \$2.0 million will become repayable. Wheaton Metals can elect to be repaid in cash or shares, with the deferral of cash payments under certain conditions for up to two years. If Wheaton Metals elects to terminate the Wheaton PMPA and be repaid with cash, interest will accrue at prime plus 8% per annum if repayment has not been made within two years of notice of termination. Wheaton Metals

Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in **United States dollars**, unless otherwise stated)

For the three months ended March 31, 2026 and 2025

may also terminate the Wheaton PMPA at different points during the term of the Wheaton PMPA if certain production delays occur, in which case the uncredited deposit will be repayable to Wheaton Metals.

Following a change of control, subject to certain conditions, the Company has a one-time option to repurchase 50% of the precious metals stream with a payout based on the greater of: (i) a minimum fixed return (ii) a return based on appreciation of precious metals prices over the term of the Wheaton PMPA and (iii) a return based on appreciation of the share price of the Company over the term of the Wheaton PMPA.

## 10. Share capital

### (a) Authorized

Unlimited common shares without par value. As at March 31, 2026, the Company had 284,340,558 (December 31, 2025 – 274,170,558) common shares issued and outstanding.

### (b) Issued and fully paid

During the three months ended March 31, 2026, the Company completed a non-brokered private placement of 10,000,000 units for gross proceeds of \$2,915,440 (C\$4,000,000). Each unit consists of one common share of the Company and one common share purchase warrant entitling the holder thereof to purchase one common share of the Company at a price of \$0.43 (C\$0.60) at any time on or before 36 months from the date of issuance. The Company determined that the attached warrants included a derivative liability due to the exercise price being denominated in a currency other than the functional currency. The fair value of the warrants was estimated at \$1,945,753 using the Black Scholes Option Pricing Model and the remaining proceeds of \$958,047 was allocated to share capital. The Company paid a finder's fee of \$131,195, paid other share issuance costs totaling \$19,114 and issued 450,000 broker warrants valued at \$85,522 based on the Black Scholes Option Pricing Model.

Assumptions used in the Black Scholes Option Pricing Model are as follows:

Risk free rate of return	<b>2.47%</b>
Expected life	<b>3 years</b>
Expected volatility	<b>82.92%</b>
Expected dividend yield	<b>0.00%</b>
Weighted average fair value	<b>\$0.19</b>

During the year ended December 31, 2025, the Company completed a brokered private placement of 8,595,500 units for gross proceeds of \$2,460,580 (C\$3,438,200). Each unit consists of one common share of the Company and one common share purchase warrant entitling the holder thereof to purchase one common share of the Company at a price of \$0.43 (C\$0.60) at any time on or before 36 months from the date of issuance. The Company determined that the attached warrants included a derivative liability due to the exercise price being denominated in a currency other than the functional currency. The fair value of the warrants was estimated at \$688,794 using the Black Scholes Option Pricing Model and the remaining proceeds of \$1,771,786 was allocated to share capital. The Company paid a finder's fee of \$146,776, paid other share issuance costs totaling \$23,728 and issued 512 730 broker warrants valued at \$52,362 based on the Black Scholes Option Pricing Model.

Assumptions used in the Black Scholes Option Pricing Model are as follows:

Risk free rate of return	<b>2.44% – 2.59%</b>
Expected life	<b>3 years</b>
Expected volatility	<b>79.58% – 81.75%</b>
Expected dividend yield	<b>0.00%</b>
Weighted average fair value	<b>\$0.10 – \$0.11</b>

(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

### (c) Stock options

Stock options to purchase common shares have been granted to directors, employees, contractors, and consultants at exercise prices determined by reference to the market value on the date of the grant.

The number of shares available for options to be granted under the Company's rolling stock option plan is 10% of the number of shares outstanding (the "Plan"), as approved by shareholders at the Company's Annual General Meeting held on June 20, 2024 and as amended at the Company's Annual General Meeting held on June 26, 2025. Options granted under the Plan vest immediately or over a period of time at the discretion of the Board of Directors.

During the year ended December 31, 2025, the Company granted 4,825,000 stock options with an exercise price of \$0.20 (C\$0.29) exercisable up to five years from the date of grant to directors, officers and employees of the Company. The fair value of the share-based compensation recognized was \$612,880 as determined using the Black-Scholes Option Pricing Model with weighted average assumptions of a risk-free rate of return of 3.14%, expected life of 5 years, expected volatility of 75.40% and expected dividend yield of 0%.

The following were changes to the Company's stock options during the periods indicated:

	<b>Number of options</b>	<b>Weighted average exercise price</b>
Balance, December 31, 2024	9,900,000	\$0.11 (C\$0.15)
Stock options granted	4,825,000	\$0.20 (C\$0.29)
Stock options exercised	(1,200,000)	\$0.11 (C\$0.15)
Balance, December 31, 2025	13,525,000	\$0.14 (C\$0.20)
Stock options granted	2,350,000	\$0.39 (C\$0.53)
Balance, March 31, 2026	15,875,000	\$0.18 (C\$0.25)

The weighted average life of exercisable options outstanding as at March 31, 2026 is 2.84 years (December 31, 2025 – 2.73 years).

Assumptions used in the Black Scholes Option Pricing Model for the options issued are as follows:

	<b>2026</b>	<b>2025</b>
Risk free rate of return	<b>2.75%</b>	3.14%
Expected life	5 years	5 years
Expected volatility	73.21%	75.40%
Expected dividend yield	0.00%	0.00%
Weighted average fair value	\$0.24	\$0.13

The following stock options were outstanding and exercisable as at March 31, 2026:

<b>Expiry date</b>	<b>Number of options</b>	<b>Weighted average exercise price</b>
August 26, 2027	500,000	\$0.09 (C\$0.12)
January 11, 2028	8,200,000	\$0.11 (C\$0.15)
January 10, 2030	4,825,000	\$0.20 (C\$0.29)
February 19, 2031	2,350,000	\$0.39 (C\$0.53)
	15,875,000	\$0.18 (C\$0.25)

## PANORO MINERALS LTD.

(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

### (d) Warrants

The following were changes to the Company's warrants during the periods indicated:

	Number of warrants	Weighted average exercise price
Balance, December 31, 2024	-	-
Warrants issued	9,108,230	\$0.42 (C\$0.59)
Balance, December 31, 2025	9,108,230	\$0.42 (C\$0.59)
Warrants issued	10,450,000	\$0.42 (C\$0.59)
Warrants exercised	(170,000)	\$0.43 (C\$0.60)
Balance, March 31, 2026	19,388,230	\$0.42 (C\$0.59)

The weighted average life of warrants outstanding as at March 31, 2026 is 2.77 years (December 31, 2025 – 2.91).

The following warrants were outstanding as at March 31, 2026:

Expiry date	Number of warrants	Weighted average exercise price
November 21, 2028	7,125,500	\$0.43 (C\$0.60)
November 21, 2028	437,730	\$0.29 (C\$0.40)
December 22, 2028	1,300,000	\$0.43 (C\$0.60)
December 22, 2028	75,000	\$0.29 (C\$0.40)
February 6, 2029	10,000,000	\$0.43 (C\$0.60)
February 6, 2029	450,000	\$0.29 (C\$0.40)
	19,388,230	\$0.42 (C\$0.59)

### 11. Related party transactions

Key management personnel are those persons that have the authority and responsibility for planning, directing, and controlling the activities of the Company, directly or indirectly. Key management includes the Company's directors and members of the senior management group.

During the three months ended March 31, 2026, key management personnel compensation included salaries, fees and benefits recorded in loss and as part of additions to exploration and evaluation assets of \$286,093 (2025 – \$256,404).

During the three months ended March 31, 2026, the Company issued 2,000,000 (2025 – 4,000,000) stock options to key management personnel and recorded related share-based expense of \$548,114 (2025 – \$612,880) for related parties.

As at March 31, 2026, included in accounts payable and accrued liabilities was \$10,716 (December 31, 2025 – \$45,900) in salaries, fees and expenses payable to related parties.

## PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements  
(Expressed in **United States dollars**, unless otherwise stated)  
For the three months ended March 31, 2026 and 2025

### 12. Commitments

The Company has the following commitments and payments due at March 31, 2026:

	2026	2027	Total
Office lease (Vancouver)	\$ 73,334	\$ 47,048	\$ 120,382
Accrued vigencias <sup>(1)</sup>	1,229,127	-	1,229,127
Accounts payable and accrued liabilities	748,481	-	748,481
	\$ 2,050,942	\$ 47,048	\$ 2,097,990

<sup>(1)</sup> Vigencias (or recording and concession fees) are not commitments rather annual payments required to maintain mineral concessions in good standing with the Peruvian government. The ultimate amount to be paid is based on a formula relating to exploration costs incurred, offset against the basic fee and penalty. Penalties are reduced, based on exploration activity on the concessions the reduction of which is determined each year by the Peruvian government.

The Company entered into an office lease in Vancouver effective August 1, 2021 for a period of six years. The Company leases warehouses in Cusco which are renewed annually. The Company is in the process of finalizing its commitments under community agreements with respect to ongoing operations at the Cotabambas project.

### 13. Financial instruments and capital management

#### (a) Fair value of financial instruments

The fair values of the Company's cash and cash equivalents, accounts and advances receivable and accounts payable and other liabilities, including liabilities under the Early Precious Metals Agreement, approximate their carrying values because of the actual or potential short-term nature of these instruments.

IFRS 13 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value.

The three levels of the fair value hierarchy are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Marketable securities are determined based on a market approach reflecting the closing price of each particular security at the reporting date. The closing price is a quoted market price obtained from the exchange that is the principal active market for the particular security. As a result, these financial assets have been included in Level 1 of the fair value hierarchy.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly, for substantially the full contract term.

Level 3: Inputs for the financial asset or liability are not based on observable market data.

The fair value of the investment in Antilla Copper was estimated by a combination of a cost approach and market approach. The cost approach was considered the most appropriate primary valuation approach for the investment particularly given that the Antilla Project is in the exploration stage with no production history. The market approach, specifically the analysis of comparable transactions and publicly available market data, was used to support and validate the value conclusion derived under the cost method. As a result, this financial asset has been included in Level 3 of the fair value hierarchy.

---

### (b) Financial risks

The Company's financial instruments are exposed to certain financial risks, including credit risk, liquidity risk, and certain market risks including foreign currency and interest rate risk.

#### Credit risk

The Company manages its credit risk through its counterparty ratings and credit limits. The Company is mainly exposed to credit risk on its bank accounts and accounts and advances receivable. Bank accounts and short-term investments are primarily with Canadian Schedule 1 banks and Banco de Credito in Peru. The Company has accounts and advances receivable primarily related to IGV receivable from the Peruvian government. As at March 31, 2026, the total of cash and cash equivalents, and accounts and advances receivable of \$1,725,805 (December 31, 2025 – \$1,014,531) represents the maximum credit exposure. As at March 31, 2026 and December 31, 2025, the Company has not identified any significant increase in credit risk with respect to its financial assets and has not identified any allowances for credit losses.

#### Liquidity risk

The Company manages its liquidity risk by ensuring, as far as possible, that there is sufficient liquidity to meet short-term business requirements, after considering the Company's holdings of cash. The Company's cash and cash equivalents are primarily invested in bank accounts, bankers' acceptances, and US government treasury bills, which are available on demand.

Contractual commitments that the Company is obligated to pay in future years are disclosed in note 12. Accounts payable and accrued liabilities, shareholder loans and current tax liability require payment within one year.

#### Market risk

The significant market risks to which the Company is exposed are foreign currency risk and interest rate risk.

#### Foreign currency risk

The Company maintains its financial statements in United States dollars. The Company is exposed to foreign currency fluctuations to the extent mineral interests, exploration expenditures and operating expenses incurred by the Company are not denominated in United States dollars.

The Company does not use derivatives or other instruments to manage foreign currency risk. The Company's operations in Perú make it subject to foreign currency fluctuations and such fluctuations may materially affect the Company's financial position and results. The Company's operating results, and cash flows are affected to varying degrees by changes in the United States dollar exchange rate vis-a-vis the Peruvian Nuevo Sol and the Canadian Dollar.

The Company purchases foreign currencies as the need arises to fund its exploration activities. Corporate expenditures are primarily incurred in Canadian and US dollars. As at December 31, 2025, a 10% change in applicable foreign exchange rates would not have a significant impact on the Company's financial results.

#### Interest rate risk

The Company's cash and cash equivalents earn interest income at variable rates. The fair value of its portfolio is relatively unaffected by changes in short-term interest rates. The Company's future interest income is exposed to changes in short-term rates; however, based on the cash and cash equivalent balance as at March 31, 2026 and December 31, 2025, a 1% change in interest rates would not have a significant impact on the Company's financial results.

### (c) Capital management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern such that it can continue to pursue the exploration and development of its mineral property interests, while maintaining a flexible capital structure. The Company considers the items included in

## PANORO MINERALS LTD.

Notes to the Condensed Consolidated Interim Financial Statements

(Expressed in **United States dollars**, unless otherwise stated)

For the three months ended March 31, 2026 and 2025

shareholders' equity as capital. The Company manages the capital structure and adjusts it in the light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust its capital structure, the Company may issue new shares, sell assets to settle liabilities or return capital to its shareholders. The Company is not currently subject to any externally imposed capital requirements. There were no changes to the Company's approach to capital management during the three months ended March 31, 2026 and 2025.

### 14. Segmented disclosures

The Company has one operating segment, mineral exploration. All the Company's exploration and evaluation assets and investments are located in Peru and are disclosed in Notes 4 and 5. Property and equipment are distributed geographically as follows:

	<b>March 31, 2026</b>	<b>December 31, 2025</b>
Peru	\$ 8,157	\$ 12,227
Canada	30,290	46,319
	<b>\$ 38,447</b>	<b>\$ 58,546</b>

### 15. Supplementary cash flow information

	<b>Three months ended</b>	
	<b>March 31, 2026</b>	<b>March 31, 2025</b>
<b>Non-cash activities:</b>		
Increase in accounts payable and accrued liabilities associated with exploration and evaluation expenditures	\$ 194,362	\$ 296,283
Fair value of warrants attached to private placement units	1,945,753	-
Fair value of Agent Warrants	85,522	-

### 16. Subsequent events

Subsequent to March 31, 2026:

- (a) 500,000 stock options with an exercise price of \$0.09 (C\$0.12), 100,000 stock options with an exercise price of \$0.11 (C\$0.15) and 350,000 stock options with an exercise price of \$0.20 (C\$0.29) were exercised.
- (b) 615,000 warrants with an exercise price of \$0.43 (C\$0.60) were exercised.
- (c) The Company completed a brokered private placement of 22,105,263 shares for gross proceeds of \$15,325,800 (C\$21,000,000).
